

Check only one of the following boxes to describe the reason for the removal of the tree. Attach a report prepared by a by a **CERTIFIED ARBORIST**, if available.

- Type "A" Permit. Tree is dead or obviously diseased.
- Type "B" Permit. A condition of the tree makes it dangerous or potentially destructive to public or private property.
- Type "C" Permit. Removal is required to enlarge the footprint of a structure, add a deck, patio, or other building structure on an already improved lot. A Type "C" permit can only be issued after a building permit for the structure is issued.
- Type "D" Permit. The tree is between 5" and 10" DBH and not permitted under any other permit type. Limited to one tree in a 24-month period.
- Type "E" Permit. Tree is greater than 10" DBH and/or does not qualify under any other permit type. Planning Commission approval is required. Mitigation is required.
- Type "F" Permit. Tree is located in a commercial or industrial zone. Planning Commission approval is required.
- Type "G" Permit. Tree is located on previously undeveloped property. Refer to Durham Land Use Code for specifics regarding removal criteria.
- Type "H" Permit. Tree was previously designated as a preserved tree in a tree preservation plan for development.

Describe the species and size of any proposed replacement tree. Refer to the City approved tree list for requirements.

Additional information that would assist staff/Planning Commission in making a decision on this application:

In the box below, sketch a bird's eye view of your property including the house, street, driveway, existing trees including trees to be removed, and other significant property features associated with the removal request. Clearly designate the tree to be removed.
