

The City neither endorses nor recommends any one particular arborist or tree care provider. The following businesses or individuals are ones Durham residents have used and reported their satisfaction with the services provided. Before hiring anyone to provide services, you should check that they are properly licensed and bonded. Also be aware that not all tree care providers are certified arborists. If the service you are looking for involves the health of a tree and a possible decision as to whether a tree should be retained or removed, use of a certified arborist may be best.

**Bartlett Tree Experts**
